Estate of JOSEPH BUSHEE

Order of Notice of Will

State of Vermont. District of Man-

chester ss.

The Honorable Probate Court for the District of Manchester. To all persons interested in the estate of Joseph Bushee late of Manchester in said District deceased,

GREETING:

At a Probate Court, holden at Manchester within and for said District on the 20th day of June, 1919, an instrument purporting to be the last Will and Testament of Joseph Bushee late of Manchester in said District, deceased, was presented to the Court aforesaid, for Probate.

And it ordered by said Court that the 17th day of July, 1919 at the Probate Office in said Manchester, be assigned for proving said instrument; and that notice thereof be given to all persons concerned, by publishing this order three weeks successively in the Manchester Journal, a newspaper circulating in that vicinity, in said District, previous to the time appointed.

Therefore, you are hereby notified to appear before said Court, at the time and place aforesaid, and contest the probate of said will, if you have cause.

Given under my hand at Manchester in said District this 20th day of June, 1919.

11-3 EDWARD GRIFFITH, Judge.

Summaries of May Reports of State Departments to Board of Control

Purchasing Agent

During May there were 356 orders placed from which bills have been presented, checked and approved amounting to \$22,666.43. During the month the aggregate difference between high and low bids on printing amounted to \$2,368.21.

State Highway Commissioner

Bridges: Applications have been received for engineering assistance on thirty-nine bridges, and referred to the state engineer.

Drawbridges: There has been expended for lumber, repairs and tender on the North Hero bridge \$630.80, and on the Grand Isle bridge for tender \$45.00.

Maintenance: Patrol routes have been established in 172 towns covering 1481.7 miles of road, 223 patrolmen have been appointed. The expenditure during the month amounted to \$44,624.08, of which the state paid \$3,952.94, and the balance was paid from funds appropriated by the towns. In addition to this department has expended for machinery and its repairs for use in patrol, \$262.73.

Commissioner Of Agriculture

Farms for Sale Census: Lists were received from town clerks from 145 towns reporting 1349 farms for sale. Blanks were mailed to names in the report requesting data regarding individual farms for publication in book provided for in No. 15 of the acts of 1919.

Marketing: Visited 15 creameries and advised with butter makers and managers about markets. Studied conditions in city markets and secured new outlets for cream, milk and eggs. Dealers in butter have begun to store small quantities of goods, but jobbers in the retail market complain about high prices for butter for storage.

Dairy Manufacturing: Regulations were drafted covering methods for sampling milk and cream and sent in mimeographed form to all the creameries in the state. A hearing was held at Montpelier to give creamery operators an opportunity to present objections to the regulations as made. Fifteen operators attended the hearing. Twenty-five creameries were visited and given assistance with creamery problems. Advice was given at 8 plants concerning plans and remodeling of creamery buildings.

Creamery - Inspection - Sixty creameries, cheese factories and shipping stations and 99 farms visited. Five hundred and sixty samples of milk and cream tested for butter fat, 404 acid tests, 906 sediment tests and 36 moisture tests, made.

Cow Testing Work: Cow testing associations were visited and addresses were given at 4 dairy meetings. Three associations have completed the year and are temporarily discontinued until testers can be found. One tester has been replaced and one new association formed in Rutland county, which leaves ten active associations at present.

Live Stock: Sixty-eight lots, containing 1,645 head of cattle, tuberculin tested by state and federal veterinarians; total of 56 head condemned, of which 28 head were killed and 28 head held in quarantine for breeding purposes.

Two hundred and ninety-three head of cattle reported tested at private tests; 35 head condemned of which 13 head were held in quarantine. Twenty-two head killed and claims held pending submission of entire herds for test.

One hundred and sixty-four head of cattle reported tested for shipment out of Vermont, none condemned.

One hundred and thirty-nine head of cattle admitted into the state on permits as follows:

82 head tuberculin tested

41 head for immediate shipment

14 head on physical examination

2 head for breeding purposes

Five head cattle imported without permit were reshipped out of the State.

Six hundred and fifty-eight horses were reported entering the State, 448 on physical examination, 264 on mallein test and 6 for immediate shipment.

Forestry: Nine of the working days of the month were devoted to University work. Three forest fires were reported, costing a total of \$29.80 for help to extinguish them. Preparation for a normal fire season is practically completed. Three additional lookout stations for use of the department in the discovery of fires are being constructed and when completed will be manned at federal expense.

The forest planting work was completed early in May. The three best jobs undertaken by the department were the additions to the

plantations on the city of Rutland's water shed forest, and to those of the George Aiken state forest at Mendon, and a new plantation established at Lanesboro on the six thousand acre tract recently acquired by the state. Approximately 80,000 trees were planted on the Rutland City Forest and 40,000 each on the George Aiken and Groton state forests.

White Pine Blister Rust and Insect Suppression: Started eradication of currant and gooseberry business in region surrounding Downer forest at Sharon. Inspections were made at Lyndon and several points between Lyndon and Bradford. An eradication area was laid out in Rye-gate.

Circular No. 3 entitled "Insects of the Season" was mailed to the libraries of the state, newspapers, members of the state horticultural society, county agents and others. Assistance was given the village of Middlebury in starting spraying operations against the elm leaf beetle.

Financial Summary.
